📄 Professional Summary

Results-driven Computer Science graduate with a solid foundation in **Software Engineering** and **System Operations**. Proven expertise in building scalable web applications using **ASP.NET** ☑ **Core, C#, and React.js**, with a deep understanding of the full Software Development Life Cycle (SDLC). Currently specializing in **DevOps & Cloud Infrastructure**, leveraging tools like **AWS (EC2, VPC, S3)** and **Terraform** to automate environments. Experienced in **Technical Operations** and API integrations, with a strong ability to troubleshoot complex hardware, software, and networking issues. I combine a developer's logic with a system administrator's mindset to ensure 100% operational uptime and provide high-level technical support. Passionate about bridging the gap between development and operations to optimize IT services and infrastructure.

🧠 Technical Skills

DevOps & Cloud:

AWS (EC2, VPC, S3), Docker, Kubernetes, Terraform, Ansible.

Software & Tools:

Microsoft Office (Expert), Active Directory basics, Outlook configuration, Ticketing systems.

Networking Basics (IP, LAN, WiFi)

TCP/IP, DNS, DHCP, LAN/WAN troubleshooting, WiFi Configuration.

Hardware:

PC/Laptop assembly, Hardware troubleshooting, Printer setup and maintenance.

Operating Systems:

Windows (XP/7/10/11), Linux Administration (Ubuntu/CentOS), Windows Server basics.

Systems & Ops:

API Integration (Viator, GetYourGuide), Incident Management.

Microsoft Office

Word, Excel, PowerPoint

Programming:

ASP.NET ☑ Core, C#, JavaScript, React.js, PHP.

🎓 Education

Bachelor's degree in Computer And Artificial Intelligence,
Modern University for Technology & Information (MTI)
(Graduated 2025)

10/2021 – 07/2025
Mokattam, Egypt

📁 Professional Experience

Technical Operations & Systems Coordinator | Foxes Technology (Dec 2025 – Present)
(Dec 2025 – Present)

New Cairo

- Manage and monitor system health and API integrations to ensure 100% operational uptime.
- Handle real-time technical incidents and provide immediate troubleshooting for system errors.
- Document technical issues and coordinate with level 2 teams for complex escalations.

Full-stack Web Developer | 3Tech (Part-time | 6 Months)

Heliopolis, Cairo

- Developed and optimized responsive web interfaces using **React.js** and integrated them with backend services.
- Provided technical support during the deployment and testing phases of the SDLC.

Backend .NET Development Trainee | ITI (Information Technology Institute),

(2 Months Intensive Training)

- Gained hands-on experience in building robust backend architectures using **ASP.NET Core**.
- Developed RESTful APIs and managed relational databases using **SQL Server**, focusing on clean code and performance.

Projects

Graduation Project , BCI by P300

- A Brain-Computer Interface (BCI) project using the P300 signal to control user interaction.
- I was responsible for developing the project's frontend website, ensuring it is responsive, user-friendly, and clearly displays data and interface elements related to brain signal processing.

Portfolio Website , <https://fathymosad21.github.io/protfolio/>

Built a personal portfolio using HTML, CSS, and JavaScript to showcase

Crud App , <https://fathymosad21.github.io/crud/>

Implemented a simple CRUD app with JavaScript for task management.

GYM , <https://fathymosad21.github.io/Gym/>

Created an animated fitness landing page with interactive design.

Certificates

DevOps Professional Training | Route Academy

- **Cloud & Infrastructure:** Hands-on experience with **AWS** (EC2, VPC, S3) and Infrastructure as Code (**Terraform**).
- **Containerization:** Expertly managing microservices using **Docker** and orchestrating clusters with **Kubernetes**.
- **CI/CD & Automation:** Building automated pipelines using **Jenkins**, **GitHub Actions**, and **Ansible** for configuration management.
- **Monitoring & GitOps:** Implementing system monitoring with **Prometheus & Grafana** and managing deployments via **ArgoCD**.

Full Stack Web Development

Raya Academy Covered frontend & backend fundamentals using HTML, CSS, JavaScript, Bootstrap, React, Angular, PHP, Node.js, and MySQL.

ASP.NET Core Web Development

Middleware Practical training on building web applications with ASP.NET , C#, OOP, AJAX, JSON, MVC/Core and SQL Server.
